## Description :

Prsentation de l'diteurYou're going to wish you never picked up this book. Some facts are too terrifying to teach in school. \* A zombie apocalypse? It could happen. 50% of humans are infected with a parasite that can take over your brain. \* The FDA wouldn't let you eat bugs, right? Actually, you might want to put down those jelly beans. And that apple. And that strawberry yogurt. \* Think dolphins are our friends? Then these sex-crazed thrill killers of the sea have you right where they want you. \* The most important discovery in the history of genetics? Francis Crick came up with it while on LSD. \* Think you're going to choose whether or not to buy this book? Scientists say your brain secretly makes all your decisions 10 seconds before you

even know what they are.
